<b>5-Year/50,000-Mile Basic Warranty on Powertrain</b> from Volkswagen of America, Inc. <sup>1</sup>			

a The height of each model is based on the curb weight of a typically equipped unit on the standard chassis. The actual height of your vehicle may vary by as much as 2" depending on chassis or equipment variations.

b Your motor home's load capacity is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.

c Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.

d Actual towing capacity is dependent on your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to your vehicle's operator's manual for further towing information.

e Not all items available in combinations. See dealer for details.

f See your dealer for complete warranty information.

Winnebago Industries' continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available.
