Model(s): All

1999▶

Date: Aug 25, 1999

Supersedes T.B. Group 01 Number 99-12 Dated July 22, 1999

Superseded due to addition of Labor
Operation on Page 2

Service

When electrical power has been restored etc.
after the battery has been disconnected,
perform adaptation / reset items listed below
to ensure proper vehicle function.

WARNING!

**Disconnect battery Ground (GND) strap
before working on electrical system.**

**Ensure there is no person inside vehicle
when connecting battery Ground (GND)
strap.**

Note:

- ◆ *The following procedures are abbreviated. if necessary, complete instructions can be found in the appropriate Repair Manuals.*
- ◆ *For vehicles equipped with Immobilizer, the Key code is maintained when power is interrupted for any reason. Therefore, recoding the key/instrument cluster is not required.*
- Check all systems for stored DTC's.
- Make appropriate repairs, if necessary.
- Clear DTC memory, if DTC's were found.
- Set engine basic settings (Electronic Throttle Control Adaptation).
- Set transmission basic settings.
- Set Climatronic, power window, and power seat adaptation.
